## Product Bulletin

### Not All Polyurethane Air Hose is Created Equal.

**Cobra** polyurethane is one tough air hose. Constructed with 100% UV stabilized polyurethane and braided with top quality Dacron Polyester, the **Cobra** is built to last. 40-50% lighter and substantially more flexible than rubber and pvc, **Cobra** outperforms and outlasts most other air hose. Polyurethane ensures excellent all-weather performance, is resistant to most oils and fuels, and can be used in many industries including construction, automotive, industrial, marine and more.
